

Keen Classics

Reclaimed Pine Range 2016

TIMBER

This Pine Furniture is hand made from reclaimed pine. This is timber rescued mainly from old buildings, which is not only very environmentally friendly but also adds to the character of each piece. This wood wears the scars of its past with pride so you will be able to identify old nail holes, etc.

CHARACTER

Timber is a natural resource and as such will adapt to its dry environment. Humidity is the main issue and in a hot home cracks can occur which merely complement the piece and add to its aged character.

FINISH

Each piece is hand sanded three times with progressively finer grades of sandpaper until smooth to the touch. Finally, again by hand, Stripped Pine Wax Polish is applied to every surface before the last exterior coat is buffed by brush and cloth to a pleasant mellow semi shine.
